## Our Mission and Vision

EduLift is a non-profit educational initiative with a focus on modernizing the educational practices in Nepal through experiential based learning and empowering the youth. Many of our direct beneficiaries are Tibetan refugees and Nepali students from underprivileged backgrounds.

Our vision is for a new kind of education where students are learning things that are actually preparing them for life. We envision a future where the EduLift model based on relevant life-skills training through an experiential teaching practice is incorporated as part of the mainstream curricula in Nepal and beyond.
